B. PROPERTY MANAGEMENT PLAN TEMPLATE

Affordable housing projects that receive financing under federal, state, and local programs are strictly regulated to ensure that low-income tenants are residing in the units at the affordable rents. Each project has one (1) or more Regulatory Agreement(s) (an attachment to the project's loan documents) recorded against the property specifying that the owner must perform all management functions for the property. These responsibilities include, but are not limited to: tenant selection, certification of household income, preparation and enforcement of leases and rental agreements, affordable rent calculations, maintenance of waiting lists, marketing vacancies, rent collection, ensuring designated Accessible Units are tenanted in accordance with federal requirements so that individuals with disabilities have access to affordable housing that has the features they need, providing reasonable accommodations, auxiliary aids and services necessary for effective communication, and ensuring accessibility for applicants and tenants with disabilities, as well as facility and grounds maintenance.

The City shall have the right to review and approve the management entity chosen by Owner for the Property and the right to require a change in the management agent at any time during the term of this Regulatory Agreement.

The developer/owner of each project must submit a Property Management Plan (PMP) using this template, which describes how the property will be managed to meet all of the responsibilities in the Regulatory Agreement(s). The Los Angeles Housing Department (LAHD), Occupancy Monitoring/Compliance Unit monitors the development's Regulatory Agreements to ensure compliance with the federal, state, and local program funding requirements and the affordability covenants.

LAHD Accessible Housing Program (AcHP) monitors compliance with the City's accessibility covenants and certifies that all of City-assisted affordable housing developments are constructed, occupied, and operated in accordance with all applicable federal and state accessibility, fair housing, and civil rights requirements and the City's Fair Housing Policies Related to Disability.

This monitoring will continue for the entire "term of affordability" as stated in the Regulatory Agreement and affordability covenant, regardless of the loan term, loan repayment or transfer of property ownership or for the terms of the Settlement Agreement with ILCSC, et. al. (CSA) and Voluntary Compliance Agreement (VCA) between the City and the Department of Housing and Urban Development (HUD), whichever expires last.

LAHD Occupancy Monitoring/Compliance Unit and AcHP, both, must review and preliminarily certify the signed PMP before the property is initially advertised for rent.

AGREEMENT

LAHSA CES - AcHP Hybrid System

To fulfill the requirements of the Court Monitor’s Further Supplemental Decision in the case of The Independent Living Center of Southern California v. The City of Los Angeles, The Los Angeles Housing Department of the City of Los Angeles (LAHD) Accessible Housing Program (AcHP) and the Los Angeles Homeless Services Authority (LAHSA) have agreed to implement a “Hybrid System” wherein LAHD’s Affordable and Accessible Housing Registry (“Registry”) will complement LAHSA’s Coordinated Entry System (CES), and similar outreach efforts, to provide supportive housing opportunities to persons with disabilities experiencing homelessness. The Hybrid System is intended to be utilized by every Covered Housing Development that contains supportive housing units subject to CES.

This agreement will be incorporated by reference into the Admission Requirements section of the Property Management Plan (PMP).

For all Covered Housing Developments under the Corrected Settlement Agreement (CSA) that contain 100% CES units or a combination of CES and non-CES units:

- a. The Hybrid System will give CES the first opportunity to identify applicants for fully accessible CES-designated units in Covered Housing Developments. Per the CES Referral System, a CES Matcher within a Service Planning Area (SPA) will provide eligible applicants from the Resource Management System to the Owner/Property Manager, when a unit becomes available.
- b. The responsibility of the Development’s Owner/Property Manager will be:
 - i. To contact the eligible applicants provided by the CES Matcher, and set up an interview for applicants to view the available CES unit(s).
 - ii. Discuss the applicants’ interest in the available CES units, or in reasonable accommodations within other units.
 - iii. Ensure that they have all the documents needed to confirm eligibility.
 - iv. Assist in completing the rental subsidy application process.
 - v. Assist in completing the lease, related paperwork, and inspection processes.
- c. In the event the CES Matcher is unable to identify an eligible applicant within three (3) business days, the search for an eligible applicant will be broadened in the following order of priority:
