Coordinated Entry System is a system of care for households experiencing homelessness that matches homeless individuals and families to housing and non-housing resources (such as medical supports) based on the individual needs.

Homeless household means a household made up of one or more individuals, other than individuals imprisoned or otherwise detained pursuant to state or federal law, who:

(1) An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning:

(i) An individual or family with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground;

(ii) An individual or family living in a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals); or

(iii) An individual who is exiting an institution where he or she resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

Chronically Homeless is defined as:

(1) An individual or family (i) Is homeless and lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and (ii) Has been homeless and living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter continuously for at least one year or on at least four separate occasions in the last 3 years; and (iii) Can be diagnosed with one or more of the following conditions: substance use disorder, serious mental illness, developmental disability (as defined in Section 102 of the Developmental Disabilities Assistance Bill of Rights Act of 2000 (42 U.S.C. 15002)), post-traumatic stress disorder, cognitive impairments resulting from brain injury, or chronic physical illness or disability;

(2) An individual who has been residing in an institutional care facility, including jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or

(3) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all the criteria in paragraph (1) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

The service provider, LA Family Housing, will provide assistance with the application process by providing guidance to applicants in completing and organizing the property's project-based voucher and other programs' eligibility requirements.

All units will be direct referrals provided by the Los Angeles County Department of Health Services (DHS) or the Los Angeles County Department of Mental Health (DMH) from their Coordinated Entry System (CES) and first assessed for eligibility by Domus Management Co. (DMC) for tax credit and other eligibility requirements.
